PROJECTS

Prescription and Medication Management Tool

- Implemented secure user authentication (signup, login, logout) with input validation.
- Developed comprehensive medication management features allowing users to perform CRUD operations with user-specific data privacy.
- Built an intelligent reminder system using cron jobs and Redis for scheduling, with multi-channel notifications.
- Created an analytics dashboard with Chart.js visualizations for medication adherence tracking and trend analysis.

Tech Stack JavaScript, React, Node.js, Express, MongoDB, Redis, JWT, Chakra UI, Chart.js, Cloundinary, Netlify, Render([Deployed Link](#))([Github](#))

MemeHQ Application

- Implemented secure user authentication (signup, login, logout) with Firebase Authentication.
- Developed comprehensive CRUD operations for user-generated meme content.
- Created an interactive meme creation tool.
- Incorporated real-time data updates for likes, comments, and content feeds using Firebase Firestore.

Tech Stack JavaScript, HTML5, CSS3, Firebase.([Deployed Link](#))([Github](#))

RecipeBook Website

- Developed secure SignUp and Login functionality with input validation.
- Created an engaging HomePage with essential information and navigation.
- Added features for users to Add and Delete Recipes efficiently.
- Designed user-friendly Add-Recipe and Meal-Plan pages.

Tech Stack Html, CSS, Javascript.([Deployed Link](#))([Github](#))
